## Brewed (Drip) Coffee

Wholesale Capsules

Brewers Ground

### Description

Using a 100% certified and compliant biodegradable polypropylene capsule, we've created a consistent and high quality extraction which retains the unique flavor profile of our espresso, resulting in a steady, creamy and flavorful taste every time.

This coffee is soft and fragrant with an intense aroma, sweet and persistent taste. Experience the great complexity of tasting this wood-roasted blend specially pre-ground for drip brewers.

Simply a great cup of coffee in the traditional American style. Also available in a decaffeinated option.
